CERTIFICATE OF CONFORMITY

A) This is to certify that all tools marked with double triangle, 1000 V + VDE GS are manufactured in accordance with the required DIN IEC 60900 standards.

B) This is to certify that articles marked with double triangle + 1000 V (without VDE GS mark, as we have not submitted an official application for VDE certification for these articles) are also manufactured in accordance with the DIN IEC 60900 standard.

C) Articles without double triangle, 1000 V or VDE GS markings do not comply with the above standard.

We certify that all above-mentioned articles (except articles mentioned under C) are produced in accordance to the standards requested DIN IEC 60900, i.e. twin triangle, 1000V. Each tool is tested 10.000V.

We confirm that the aforementioned statements are in accordance to the facts.
